

Innovate UK

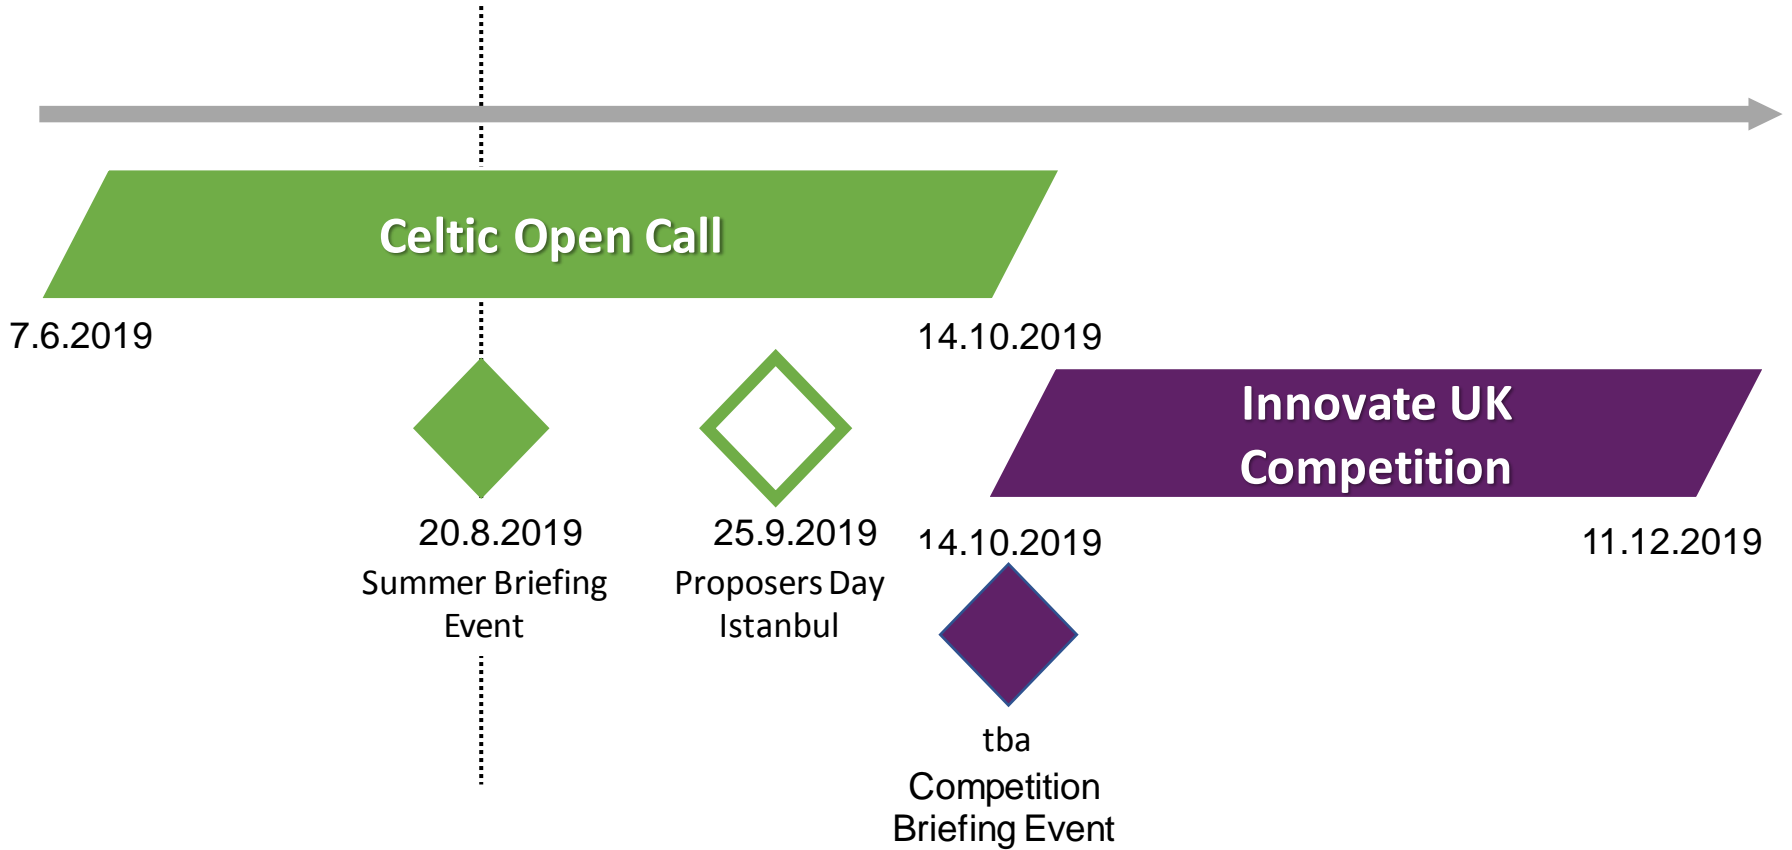

Summer Briefing Event, London

Jean-François (JF) Fava-Verde

20th August 2019

Innovate UK is part of
UK Research and Innovation

Overview

Innovate UK Competition Preview

- Up to £2 million allocated
- Open to any UK organisation
- Business-led, collaborative at UK and EUREKA levels
- Must include at least one SME
 - a minimum of 30% of total eligible project costs must go to SME
- Can include academic or research institutions, public sector organisations or charities
 - for a maximum of 30% of total eligible project costs
- Funding as % of eligible costs:

- Projects may last from 12 to 24 months
- CELTIC Label is a prerequisite for application to be successful

We are expecting to fund two or three projects, each with total UK project costs to range in size from £400,000 to £2,500,000

Competition Scope

- We will be seeking proposals to develop:

1. innovative 5G infrastructure technologies

- AI in network operation
- Multi-access Edge Computing

2. Applications and services that leverage 5G networks, as well as 5G features in satellite networks or 5G applications and services integrating satellites

- Internet of Things
- Tactile Internet
- Mission critical applications
- Infotainment mobile services
- Immersive content

We will be looking especially for projects dealing with industrial and enterprise environments, as well as rural areas.

The logo for Innovate UK, consisting of the text "Innovate UK" in a white, sans-serif font, centered within a white circle. This circle is part of a series of overlapping white circles of varying sizes that create a sense of depth and movement against the dark purple background.

Thank you
