CELTIC-NEXT Proposers Day
23rd of February 2021, Online via WebEx

Pitch of the Project Proposal

Federated AI Platform for Industrial Technologies (F4iTECH)

Dr. Ismail Uzun, CEO
ismail.uzun@inosen.com.tr
**What is the main benefit of the idea/proposal?**

The decentralized manufacturing model in industry with Federated AI allows protected collaborative manufacturing.

**What makes the added value?**

In the FAI based collaborative manufacturing, key manufacturing information can be protected through just exchange a model to indicating target functions. It would be very helpful for high technology based SME to have B2B collaboration in manufacturing.

**Why should I participate in the project?**

If you are a sensor developer or technology provider for the next generation industrial solutions, you can be part of this project.
